2:15-3:05	Parent Communication /Remediation	Parent Communication /Remediation	Parent Communication /Remediation	Parent Communication /Remediation	Parent Communication /Remediation

1. The remote learning schedule was created to mimic a normal school schedule. In accordance with the State of Alabama attendance laws, students are required to log on every day.
2. Synchronous teaching is live and online. Students should log on during these periods for active instruction.
3. Asynchronous instruction is not active instruction, these are assignments that are derived from the active instruction time. This is an active learning assignment. Teachers should be available to help guide students, but not to introduce new material.
4. 7:55-8:20 Will be used for staff and department meetings. On days when teachers are not meeting, they will be available for remediation or to assist students and parents.
5. Student small group is a time where teachers make themselves available for group or individual remediation depending on need.
6. In addition to small group time teachers will be available from 2:15-3:00 to field questions from parents and students. This will be online.
7. After school help will also be available by calling (205) 379-4700
8. For tech help please call (205) 379-4700. You will be sent to someone that can help.

Schoology Information

Students and teachers will use a learning platform called Schoology. More information will be provided on how to log in and do work via this remote learning platform.
