

Warrior Summer Registration 2019

Warrior Elementary will have two parts to registration. First, all parents need to complete the pre-registration form and submit proofs of residence. These are due each year and must be dated within the last 2 months. The proofs of residence should include a mortgage or lease and two utilities. Second, all students, except for pre-k, must complete online registration. In order to complete online registration you need a SNAP code. The codes will be available in June, after parents have completed the first part of registration. Parents can come on June 18th and 19th to pre-register and/or complete online registration. If pre-registration and proofs of residence are already submitted, SNAP codes will be available early and/or parents can “fast track” within the registration process.
